PROFESSIONAL SUMMARY

IT Support Specialist with hands-on experience supporting Windows endpoints, Microsoft 365 services, user access, workstation deployments, and network connectivity. Skilled in troubleshooting hardware and software issues, documenting resolutions, and improving endpoint operations through PowerShell automation, MDT, PDQ Deploy/Inventory, Intune, and Active Directory. Brings a practical infrastructure background built through professional support work and a self-hosted Proxmox/Linux homelab.

TECHNICAL SKILLS

Endpoint & Identity: Windows 10/11, Microsoft 365, Intune, Entra ID, Exchange, Active Directory, MFA, licensing, Freshdesk
Deployment & Automation: MDT, task sequences, PDQ Deploy, PDQ Inventory, PowerShell, application deployment
Infrastructure: Proxmox, Linux/Ubuntu, DNS, DHCP, VLANs, Wireshark, Grafana, Snort IDS/IPS

PROFESSIONAL EXPERIENCE

IT Support Specialist | **ContactPoint 360** | May 2026 - Present

- Provide hands-on support for Windows workstations, peripherals, software, user access, and network connectivity in a high-volume environment.
- Troubleshoot Microsoft cloud services including Intune, Entra ID, Exchange, MFA, licensing, and account-access issues.
- Use MDT task sequences for endpoint imaging and PDQ Deploy/Inventory for software deployment, asset visibility, and device management.
- Document technical resolutions, coordinate escalations, and apply practical hardware and operating-system knowledge to restore service quickly.

Helpdesk Specialist | **City of Pharr - Pharr Connect** | January 2026 - May 2026

- Supported residential fiber-internet customers by diagnosing ONT, router, Wi-Fi, account, and service-activation issues.
- Documented incidents and escalated network or infrastructure problems to field technicians while communicating clear next steps to customers.

Front End Checkout Team Associate | **Walmart** | December 2023 - December 2025

- Delivered dependable customer support, resolved service issues, and collaborated effectively in a fast-paced, customer-facing environment.

SELECTED TECHNICAL PROJECTS

Endpoint Deployment and Support Automation | **Personal / Professional Project Work** | 2026

- Developed PowerShell-based support and maintenance workflows for common endpoint tasks, including browser-data remediation, application cleanup, and operational troubleshooting.
- Designed deployment-ready packaging and execution approaches for remote-management tools, emphasizing repeatability, clear logging, and end-user reliability.

Self-Hosted Homelab and Server Infrastructure | **Personal Project** | Ongoing

- Built and maintain a Proxmox-based homelab with Linux/Ubuntu virtual machines supporting storage shares, media services, monitoring, and game servers.
- Configure virtual machines, networking, DNS/DHCP, storage, permissions, and service availability while troubleshooting Linux and hardware issues.
